

Rebate Table 5.5

Floor Type	Thickness (mm)	Rebate Height H (mm)	Rebate Width W (mm) (from back of the flange)
Carpet	20	No rebate	NA
Tile	13	10	65
Timber	22	No rebate	NA

Note: Rebate width is calculated from the back of the flange. For cavity construction, that is the outside of cladding. For direct fix, that is Min 5mm out of cladding.

Note: The bottom frame needs to be packed level from end to end so weight is well supported by the structure.
