

Rebate Table 6.6

Floor Type	Thickness (mm)	Rebate Height H (mm)	Rebate Width W (mm) (from back of the flange)
Carpet	20	26	55
Tile	13	33	55
Timber	22	24	55

Note: Rebate width is calculated from the back of the flange.
For cavity construction, that is the outside of cladding.
For direct fix, that is Min 5mm out of cladding.

Note: The bottom frame needs to be packed level from end to end so weight is well supported by the structure.
